🐙 github.com/Karthick-71

Strong knowledge and experience in manual and automation frameworks, consistently introduce fresh, innovative ideas and take a proactive leadership approach to meet project goals. Commitment to continuous improvement has led to a culture of excellence and efficiency in software testing, making me a valuable asset to any Agile testing team.

Professional Experience

Sr Data Analyst - QA, Mako IT Lab

Oct 2025 – Present

- Developed automated data pipelines using Python and Pandas to process and validate large CSV and Excel datasets.
- Integrated REST APIs to automate bulk record creation, updates, and cross-platform data synchronization.
- Validated business workflows and reconciled datasets during large-scale system data migrations

Skills: Python, Pandas, REST API, Data Validation, Data Migration, CSV/Excel Processing, Automation

Software Quality Assurance Engineer, Freightify

Apr 2023 – Sep 2025

- Developed Python-based API automation framework with Excel-driven test data; automated 1000+ test cases
- Executed end-to-end functional, API, and regression testing across web and desktop applications
- Integrated Jenkins CI/CD build validations; ensured green builds
- Led performance POC using Locust and Postman; evaluated backend response
- Collaborated in Agile sprints; defined acceptance criteria with PMs, developers

Skills: Python, Selenium, Playwright, Pytest, Test Automation Frameworks, Postman, Jenkins, Locust

Software Test Engineer, Freightify

Jan 2022 – Mar 2023

- Designed UI, API, regression test cases for web, mobile, and desktop applications
- Built API automation with Python; replaced manual validation, improved coverage
- Automated Excel workflows using Pandas to streamline file processing
- Developed desktop automation with Pywinauto for legacy application testing

Skills: Python, Pytest, Selenium, Postman, Pywinauto, Pandas, Excel Automation, Jira, QA Touch, Agile

Data Analyst, Freightify

Mar 2021 – Dec 2021

Includes 6-month Internship (Mar 2021 – Aug 2021)

- Standardized rate sheets using Excel and audited carrier data to improve accuracy and streamline workflows.
- Resolved recurring workflow issues and delivered rate sheets while maintaining daily executive reports.

Skills: Excel, VBA, Reporting, R&D, SLA, Data Auditing, Process Optimization, Freight Domain, Automation

Technical Skills

Python, Selenium, Playwright, Pytest, Postman, Jenkins, Locust, Excel Automation, Pandas, Pywinauto, AWS, SQL, CI/CD, Jira, QA Touch, Agile

Professional Skills

- **Effective Communication & Documentation:** Clear communicator; produce documentation for cross-team collaboration.
- **Analytical & Problem-Solving:** Dissect issues, identify root causes, and resolve defects for reliability.
- **Adaptability & Accountability:** Commit to continuous learning; take ownership to support success.

Education

University of Madras

2017 – 2020

B.Com in Corporate Secretarialship - First Class
